EcoCore Oak

Quarter Cut

Made from American White Oak Quarter Cut AB Grade veneer pressed onto a Rubberwood plywood core, EcoCore Oak QC offers a perfect blend of durability, aesthetics, and sustainability.

EcoCore Oak Quarter Cut delivers an ideal balance of strength, elegance, and sustainability—defined by its distinctive straight grain. The pre-sanded faces are ready for finishing, and the Clear Coated option is ready to install. Made from repurposed material, they're ideal for interior wall and ceiling linings, joinery and cabinetry.

PERFORMANCE

CARB EPA TSCA certificate

ISO 9001:2015

FSC certified

Skape. PANELS

EcoCore Oak

Quarter Cut

Rubberwood Core: A sustainable material sourced from rubber trees at the end of their latex-producing lifecycle. Rather than going to waste, these trees are harvested and repurposed into timber-based products, supporting responsible resource use and environmental conservation.

FEATURES

- American White Oak Quarter Cut AB Grade Face Veneers
- Rubberwood Plywood core
- Available Uncoated or pre-finished with a Clear coat
- Light golden brown in colour
- Straight grain and fine texture

BENEFITS

- Uncoated – Pre-sanded faces take stain, polyurethane, oil and paint well
- Clear coated – ready for installation
