Skape. PANELS

WireDeck 220

Anti-Slip

Made with a durable Rubberwood core and finished with a tough dark brown overlay that features a wire-mesh pattern.

WireDeck 220 can be used where high wear resistance and antislip properties are required. Perfect for truck and trailer decking, scaffolding, staging, and more.

Note: The panel edges are sealed with weatherproof paint. Any cutting, machining, or drilling will compromise this seal and must be re-sealed using a suitable waterproof coating.

Postal address: Skape Panels Limited,
34 Leonard Road, Mt Wellington, Auckland 1060.

Skape. PANELS

WireDeck 220

Anti-Slip

Rubberwood Core: A sustainable material sourced from rubber trees at the end of their latex-producing lifecycle. Rather than going to waste, these trees are harvested and repurposed into timber-based products, supporting responsible resource use and environmental conservation.

FEATURES

- Hard wearing film with wire mesh pattern
- Dark brown film
- WPB phenolic glue
- Edges sealed with waterproof paint

BENEFITS

- The wire mesh overlay improves panel resistance against mechanical damage and wear.
- Surface is resistant to commonly used chemicals and surface impact.
- Anti-slip surface
- Weather and waterproof
- Easy to cut and clean
- Re-purposed material

DIMENSIONS

Sheet Size	Thickness
2440 x 1220 mm	12, 15, 18, 21 mm

SCOPE

- Truck and trailer decking
- Ute decks
- Scaffolding
- Stair treads
- Vehicle and factory floors
