EcoCore HPL

Rubberwood Core

Made with High-Pressure Laminate (HPL) surfaces pressed on a Rubberwood plywood core, this panel delivers a balanced mix of strength and style, making it well-suited for modern cabinetry and joinery applications.

Offered in White, Taupe, Black, Oak and Maple finishes, these panels deliver a scratch-and fade-resistant surface that's easy to maintain and built to stay looking sharp in high-use interior spaces. Made from re-purposed material, they provide a dependable solution for joinery and cabinetry projects.

PERFORMANCE

CARB EPA TSCA certificate

ISO 9001:2015

FSC certified

Postal address: Skape Panels Limited,
34 Leonard Road, Mt Wellington, Auckland 1060.

Skape. PANELS

EcoCore HPL

Rubberwood Core

Rubberwood Core: A sustainable material sourced from rubber trees at the end of their latex-producing lifecycle. Rather than going to waste, these trees are harvested and repurposed into timber-based products, supporting responsible resource use and environmental conservation.

FEATURES

- High-Pressure Laminate (HPL) faces
- Rubberwood plywood core
- Available in White, Taupe, Black, Oak and Maple finishes

BENEFITS

- Anti-bacterial properties (ISO 22196)
- Chemical resistant
- High wear, impact and heat resistance
- Scratch and fade resistant
- Easy to clean
- Re-purposed material

DIMENSIONS

Sheet Size	Thickness
2440 x 1220 mm	18 mm White, Taupe, Black, Oak, Maple
2440 x 1220 mm	24 mm White, Maple

SCOPE

- Joinery and cabinetry

Note: For interior use only.
