

MaxiForm

Formwork

MaxiForm F17 is highly durable and ideal for most formwork applications including tilt-up wall slabs, suspended decks, columns, and precast. The film face prevents timber from absorbing the bleed water and results in a smooth concrete finish.

- Can be reused over 30 times with proper care and handling
- Superior water resistance and stiffness stability
- Manufactured to stress grade of F17
- AS6669 certified
- Machined squareness and straightness
