

SkapeOak

Crown Cut

Made from Crown Cut AB Grade American White Oak veneer pressed onto a Rubberwood plywood core, SkapeOak CC offers a perfect blend of durability, aesthetics, and sustainability.

Renowned for its warmth, elegance, and rich character, Crown Cut American White Oak features a striking cathedral grain with bold arches and graceful, flowing lines. The pre-sanded faces are ready for finishing, and the Clear Coated option is ready to install. Made from repurposed material, they're ideal for interior wall and ceiling linings, joinery and cabinetry.

PERFORMANCE

CARB EPA TSCA certificate

ISO 9001:2015

FSC certified

SkapeOak

Crown Cut

Rubberwood Core: A sustainable material sourced from rubber trees once their latex production cycle ends. Rather than going to waste, these trees are harvested for furniture and other products, supporting environmental conservation. Known for its strength and durability, rubberwood is a popular choice for interior linings, cabinetry and joinery.

FEATURES

- Available uncoated and UV clear coated
- American White Oak Crown Cut AB Grade face veneers
